Press Release: **2016 WINTER WEATHER INFORMATION**

From: Chad Omitt  
Warning Coordination Meteorologist  
National Weather Service Topeka, KS

**Winter Weather Awareness Day** for northeast Kansas will be **Thursday December 1, 2016**. The National Weather Service selects a day each fall to remind Kansans of the risks associated with winter weather. Many people often find themselves unprepared for the onset of snow, ice, and cold weather that come with the winter season.

Knowledge and preparation are essential to reducing your risk, and this year we will focus on the hazards associated with driving in ice and snow.

Additional winter weather preparedness and safety information will be provided and will also be posted to the National Weather Service Topeka website. This website is a comprehensive resource for winter weather information. Please use the information provided in the attached documents and on the website for newspaper articles, interviews, and presentations related to winter weather safety.

NWS offices serving Kansas will also be providing information via social media including Twitter on December 1<sup>st</sup> using the hashtag #KSWWAD

Our website address is: [www.weather.gov/topeka](http://www.weather.gov/topeka)

[The Current 2016 – 2017 winter outlook from NOAA's Climate Prediction Center](#) .

By promoting Kansas Winter Weather Awareness Day 2016, we hope to remind the public of ways to reduce the hazards associated with winter weather. Thank you for your help in this effort.

## ...ALL ABOUT SNOW...

This is official data recorded at National Weather Service observing stations in Concordia and Topeka. Information is likely to vary at other unofficial sites around north central and northeast Kansas.
